Brainware University, Kolkata — BTECH CSE _ AIML

JULY-2022 - currently

Currently holding a GPA of 9.64

PROJECTS

Stack-Overflow Clone — MERN stack and stuffs

This is a Stack Overflow clone where the user can log in via Google OAuth

And they can post their questions to the community and the users try to answer them

Live Link: <https://felixunderflow.onrender.com/>

Code: https://github.com/felixoder/discussion_group

University TechHub - MernStack Firebase and many more

This is a university techhub that I made for our cse department. Here The admin can post newsletters , hackathons , events news And many more and the interested students can give their valuable feedbacks. Additionally I had implemented a **chat application** in it where students can chat for their problem solutions

Live: <https://bwu-cse-techhub.onrender.com>

Code: <https://github.com/felixoder/bwu-techhub>

Digital Question Bank (PYQ) – MernStack Firebase etc..

This is a project where I implemented a solution of a problem that I viewed on **Product Hunt** and I had implemented a platform where students can post their PYQ and view other PYQ based on their classes.
